

# BAMBINI bougs

**Jaspa** Released Spring 1998  
Landscape, Courtyard Pots, Formal Standards and Baskets. Height in garden 60 cm - 1m

**Jaspa** is a great plant for typical bougainvillea colour. Flower bracts appear in vast numbers completely covering the plant in season. The leaves of the plant are variegated white and green. When the flowers appear in large numbers they are iridescent orange, the colour contrast is magic.

## USES:

**Jaspa** is long flowering so is ideal for container culture. Make sure that the plant is kept moist but not overwet. In a Hanging Basket it is really important to use a large basket to give the plant room to mature, this will result in more flowers. Used in gardens as an individual specimen or in group plantings **Jaspa** will grow well in most soil conditions.

## ZONES:-

In Gardens

In gardens and pots

## For the Homeowner

- Extremely free flowering
- Blooms right through until cooler months
- Versatile

### Planting

Plant in courtyards, patio pots, baskets, garden beds or window boxes. Formed standards.

### Placement

Place in bright, full-sun areas.

### Temperature

Grows well in cool areas

Heat tolerant to 90-95°C

Frost tolerant to 15°C

### Watering

Keep on the dry side to encourage heavier flowering.

### Fertiliser

Use slow release fertilisers with an even balance of NPK, they are heavy feeders.

### Pruning

Trim as desired, but it is not necessary to maintain flowering.

## For the Grower

### Planting

**Timing :** Spring - Summer - Autumn.

**Plants per pot:** One only

**Finish time:** 10-12 weeks from potting

**Soil:** A general shrub mix

**pH:** Neutral to slightly acid

**Light Levels:** High, even full sun.

**Temperature** A growing house with good ventilation and held above 10°C.

**Water Requirements** Average, avoid wilting.

### Fertiliser - either 1 or 2

**1. Constant feed:** Every two weeks with a general liquid fertiliser.

**2. Slow Release:** Slow release fertiliser with an NPK ratio in even balance and with trace elements added.

**Pinching:** Pinch tubes prior to potting. Tip prune to shape the plant as needed.

**Growth Regulators:** Not needed.

**Pest Control:** Control aphids. In cool weather if the leaves are wet leaf spot can develop.
